Reissue Application

The amendment to the claims filed July 30, 2008 is not in proper reissue amendment format. See MPEP 1453 and 37 CFR 1.121 or 1.4. Even though an Amendment which appears to be compliant has been filed, there appears to be some problems in comparing said amendment to the original patent claims. The first discrepancy noted is that original patent claim 1, line 3, issued with a hyphen between product and receiving (i.e. read "a food product-receiving chamber"). The version of claim 1 in the amendment, filed July 30, 2008, does not include the hyphen nor are there markings to indicate applicant is deleting the hyphen. The claims should be checked for ALL such discrepancies. Applicant is required to file a compliant oath which corrects any such problems.

Each claim must be provided with the proper status identifier, and as such, the individual status of each claim cannot be identified. Note: the status of every claim must be indicated after its claim number by using one of the following status identifiers: (Original), (Currently amended), (Canceled), (Previously presented), (New), (Not entered), (Withdrawn) and (Withdrawn-currently amended).

Oath/Declaration

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration filed with this application is defective because it fails to identify ALL changes made in the claims upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claim Rejections - 35 USC § 251

Claims 1-10, 12-20, 23-34 and 36-47 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. Applicant will need to file a compliant oath/declaration which corrects any such discrepancies in the claims. The nature of the defect in the oath/declaration is set forth in the discussion above in this Office action.

Claims 1-10, 12-20, 23-34 and 36-47 are rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects. Some of these claims appear to be broadened in some respects (though narrower in other respects) yet the only oaths present are by assignee. A broadening reissue must be applied for by all of the patentees. See MPEP 1412.03 and 1414.

Conclusion

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,286,417 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
